

# Bluetooth® Enhanced Landline Link

The Bluetooth® Enhanced Landline Link (BELL™) is a cutting edge component developed by Specialty Wireless Advanced Technologies, LLC (SWAT, LLC) that brings Bluetooth® Wireless Cellular Connectivity to the Direct-Link 800 Series Crisis Response System.

Once the **BELL™** is connected to the Direct-Link 800 Series Crisis Response System and is paired to **ANY** Bluetooth® Enabled Cell Phone, **Hostage/Crisis Negotiators** can use the paired Cell Phone's network to utilize **ALL** of the Direct-Link 800 Series System's audio communications, sharing, and recording functions while negotiating with a barricaded subject.

In addition to bringing Bluetooth® Wireless Cellular Connectivity to the Direct-Link 800 Series Crisis Response System, the **BELL™** also features a built-in Enhanced Landline Module which allows **Hostage/Crisis Negotiators** to perform a "3-way Call" during landline operations to introduce a 3rd Party Intermediary (TPI) into the negotiations.

*Price/Unit:*

**\$1,749.50\*\***

\*\*Special Introductory Price Item # ETG-SWAT-BELL includes:

- (1) Bluetooth® Enhanced Landline Link (BELL™) with Internal Rechargeable Battery Built Inside a Rugged/Military Specification Pelican™ case;
- (1) "Fool-Proof" Neutrik Patch Cable;
- (1) RJ-11 Patch Cable;
